## EDUCATION

---

### University of Washington

*B.S. in Computer Science (GPA: 3.84)*

*M.S. in Computer Science (GPA: 3.90)*

Seattle, WA

*Aug. 2018 – Dec. 2022*

*Jan. 2023 – Expected Jun. 2024*

## EXPERIENCE

---

### UW Programming Languages & Software Engineering Lab ([link](#))

Dec. 2021 – Present

*Research Assistant*

*Seattle, WA*

- Develop and extend programming languages to address challenges in the hardware and architecture domain
- Collaborate with graduate students, and faculty to author/submit papers to conferences and journals
- Played a vital role in projects such as Lakeroad and 3LA; see "Projects" section for detailed contributions
- Advised by Zach Tatlock ([link](#)) and Gus Smith ([link](#))

### Paul G. Allen School of Computer Science & Engineering

Sep. 2019 – Present

*CSE 12X Intro TA Coordinator*

*Seattle, WA*

- Oversee team of 100+ TAs across 4 introductory CS courses, ensuring smooth operation of the TA program
- Hire and interview 50 TAs each quarter, ensuring the selection of highly qualified and passionate individuals
- Lead weekly training of new TAs each quarter, providing necessary skills, resources, and guidance
- Maintain strong feedback loop with course faculty to align instructional strategies with TA support
- Promoted from position of Lead Teaching Assistant (Sep. 2019 – Jun. 2023)

### Intel Labs

Jul. 2023 – Dec. 2023

*Formal Verification Research Intern*

*Hillsboro, OR*

- Develop hardware abstractions for incorporation with symbolic evaluators to rigorously verify implementations
- Encode correctness proof for data movement between Number Theoretic Transform (NTT) components
- Enhance efficiency and modularity by refactoring existing proofs to include abstract modules
- Collaborate closely with engineering teams to identify and rectify discrepancies between RTL/proof codebase

### Amazon

Jun. 2022 – Sep. 2022

*Software Development Engineer Intern*

*Bellevue, WA + Remote*

- Spearheaded development of a skill tree training service tailored for Amazon associates in fulfillment centers
- Designed project infrastructure capable of accommodating over 300,000 users with minimal operational costs
- Implemented full-stack web application using TypeScript, AWS, DynamoDB, and React

## PROJECTS

---

### Lakeroad | Team Member

Jan. 2022 – Present

- Extend Lakeroad-specific DSL to include solver constraints, significantly improving the synthesis runtime
- Develop robust evaluation framework to rigorously evaluate inference subroutines across mainstream tools
- Assist in drafting and editing a conference paper under submission; see Publications section for details

### 3LA | Team Member

Jan. 2021 – Sep. 2022

- Use Z3 to verify that intermediate transformations offloading operations to accelerators preserve correctness
- Extend capability of Glenside, an IR used in 3LA, to support additional operations and machine learning kernels

## PUBLICATIONS AND POSTERS

---

- *FPGA Technology Mapping Using Sketch-Guided Program Synthesis*. Gus Henry Smith, Ben Kushigian, Vishal Canumalla, **Andrew Cheung**, Steven Lyubomirsky, Sorawee Porncharoenwase, René Just, Zachary Tatlock. (to appear at ASPLOS 2024).
- *Surveying FPGA Technology Mapping Completeness*. **Andrew Cheung**. ICFP 2023 Student Research Competition (**1st place in graduate category**). ([link](#)).
- *Generate Compilers from Hardware Models!*. Gus Henry Smith, Ben Kushigian, Vishal Canumalla, **Andrew Cheung**, René Just, Zachary Tatlock. PLARCH 2023. ([link](#))
- *Application-Level Validation of Accelerator Designs Using a Formal Software/Hardware Interface*. Bo-Yuan Huang, Steven Lyubomirsky, Yi Li, Mike He, Gus Henry Smith, Thierry Tambe, Akash Gaonkar, Vishal Canumalla, **Andrew Cheung**, Gu-Yeon Wei, Aarti Gupta, Zachary Tatlock, Sharad Malik. (under submission to TODAES). ([link](#)).
